Private Pilot Licence Course

The adventure of flying begins with your Private Pilot Licence (PPL). With this license you can venture out into the world of aviation. Whether you plan to fly for fun, give rides to friends and family, provide yourself with transportation, or simply build time and experience for future ratings, it all begins with the private certificate.

The training consists of flight training in an aeroplane and ground theory training. Your instructor will carefully plan the training so that these two elements are integrated for your best achievement.
